OLEEVIA FOUNDATION SIGNS MOU WITH DEPARTMENT OF PETROCHEMICAL ENGINEERING, RVS COLLEGE OF ENGINEERING AND TECHNOLOGY

Purpose of the MoU

The collaboration is envisioned to provide students with a platform for holistic development beyond the classroom by integrating academic learning with grassroots engagement. The MoU lays the foundation for joint efforts in:

- Applied research in sustainable and eco-friendly technologies
- Social impact projects leveraging engineering knowledge
- Internships and live projects with Oleevia Foundation
- Capacity building workshops and guest lectures
- Joint publications, competitions, and exposure visits

In a promising step towards academic-industry collaboration, **Oleevia Foundation** has signed a **Memorandum of Understanding (MoU)** with the **Department of Petrochemical Engineering, RVS College of Engineering and Technology, Coimbatore**. This landmark partnership aims to promote innovation, skill development, and real-world exposure for engineering students through socially impactful initiatives. This was made possible under the visionary leadership of **Shri Krishnakumar K T, Chairman and Managing Director of Oleevia Group**, whose consistent support is fueling Oleevia Foundation's mission

A Step Towards Empowered Youth and Sustainable Change

The MoU reflects Oleevia Foundation's ongoing commitment to empowering the youth and enhancing the capabilities of educational institutions to engage meaningfully with real-world challenges. It also aligns with our strategic goal of fostering academia-NGO-industry partnerships for a better tomorrow. Joint programs under this MoU will commence from the upcoming academic term. We look forward to impactful student engagement, innovative problem-solving, and a vibrant exchange of ideas that contribute to both academic growth and social transformation.
